Subject: RE: Updated PFAS/Containers AA Briefing Paper

Thanks! In case it's helpful – the max app rate is 0.62 fl oz product per acre = 18.34 mL. This should help with characterizing the concentrations found in your 50 mL samples.

Best,
Catherine

Subject: Updated PFAS/Containers AA Briefing Paper

All,

As a follow-up to this morning's briefing, please see attached for a link to a revised, draft briefing paper to start to address Michal's questions/requests. A few thoughts:

Ex. 5 Deliberative Process (DP)

Thanks, and let me know of any suggestions. I'm sharing as a link to my one-drive, but it should probably be added to a OCSPS SharePoint site so it's more widely owned.

Kimberly
